Training Course Overview

There is an urgent need in business today for a new type of leadership—one that makes the long-term sustainability of our world a top priority. The Sustainable Leader is one who creates value for all stakeholders of organisations. These included the environment, future generations and the community. Sustainable leadership is a set of behaviours, practices and systems about envisioning and shaping the future.

This exciting and practical five-day training course will cover topics such as Stakeholder Management, Corporate Social Responsibility, Ways to improve communication, Decision-making and problem-solving methods and Critical-thinking and creativity.
