

Mini MBA: Accounting & Finance

Mastering Accounting & Finance

TRAINING COURSE OVERVIEW

This Anderson training course is designed to cover the role and importance of accounting and finance in today's business world. It will provide an 'MBA level' experience in terms of content, instruction, discussion, and team exercises. The training course includes a comprehensive illustration of how accounting information is collected, recorded, analyzed and presented both internally and externally, to support effective management, control, and decision making. The training course offers insights into the main factors that are essential to the successful financial management of corporations, including the efficient allocation of resources, within the economic, competitive, and physical environment. The training course will also put emphasis on the importance of good quality corporate governance and management of financial risks.
