Fees: \$1,100

29 - 30 March 2021
11:00 to 16:00 Dubai [GMT +4]
Fees: \$1,100

ONLINE TRAINING COURSE OVERVIEW

In a rapidly changing world, the drive to deliver faster, cheaper and right-first-time has never been greater. Meeting the rising demands of our customers and stakeholders requires smarter, more streamlined processes that minimize friction and empower people to do a great job.

Through this highly practical training course, you will learn how to apply world-class improvement tools and methodologies, and gain experience of identifying improvement opportunities and using practical techniques to deliver them. This Anderson online training course will help you align business performance to organisational strategy, eliminate waste and deliver more effective customer service. It will help you build business processes from the ground up, remove barriers that currently hold people back, and deliver measurable benefits in terms of time, cost and quality.

ONLINETRAININGCOURSEOBJECTIVES

By attending this Anderson online training course, you should achieve these goals:

- Locate and quantify operational performance improvements
- Identify and eliminate waste and reduce cycle times
- Identify and address the root causes of current performance problems
- Re-design your operational processes
- Deliver what your internal and external customers want better, fast and cheaper
- Measure the business benefits delivered through your improvement efforts
- Get your people on board so that improvement sticks and benefits last
