Training Course Overview

This **Master the Art of Proactive Thinking and Taking Action at Work** training course will provide you with the principles, practical techniques, and skills to move ahead in your career. You will learn the competence, techniques and mindset that creates performance and presence

This personal development training course enables participants to develop confidence, thinking-skills, and personal power to build their personal presence.

This Anderson training course will feature:

- The skills of personal goal setting, creating energy, and self-motivation
- Master pro-active and positive thinking and correct decision making
- Presenting and communication at a high level
- Taking action and focusing on key priorities
- Planning for performance using proven techniques

Training Course Objectives

By the end of this Anderson training course, participants should be able to:

- Understand your ability as competencies and skill sets you can develop
- Know what your organization and others expect from you
- Know how to lead by example through excellent communication
- Analyse your preferred personal style for greater effectiveness
- Learn planning techniques to transform your goals into action
- Be able to be a better problem solver and decision maker
- Develop a powerful, positive mindset every day

Designed For

It is ideal for ambitious professionals who recognize that improving their thinking, motivation and planning skills is key to their success. It is also for those who want to influence others and achieve bigger goals. Those who understand that positive thinking and good planning

techniques build workplace success.

This Anderson training course is suitable to a wide range of professionals but will greatly benefit:

- ▶ Developing leaders and managers
- ▶ Professionals seeking great results and responsibilities
- ▶ Those looking to grow and develop

Learning Methods

This Anderson training course will combine presentations with interactive practical exercises, supported by activities and case studies. Delegates will be encouraged to participate actively in relating creative leadership strategies to the particular needs of their workplace.

It is an interactive mixture of lecture, discussion, activities, and practice on several management skills. It provides definitions, examples, discussion and activities designed to promote skill building with interaction and discussion among participants. Activities and work on practice case studies are used to deliberately highlight the concepts taught and allow participants to practice new skills.

▶ Training Details
