Training Course Overview

How can we manage risk? Risk is all about uncertainty, and in order for any organization to succeed in today's fast paced, globally interlinked business environment the ability of the pro-active Risk Champion to identify, assess and reduce that uncertainty is essential. Core knowledge and skills of the future ready Risk Champion encapsulate leadership & decision-making, planning, operations, logistics, stakeholder communications, finance, administration, infrastructure, reputation and crucially, external geo-political issues.

This popular Anderson training course will cover Risk Management and Enterprise Risk Management (ERM) in line with the ISO31000 framework, as well as the role of the Risk Champion, allowing your organization to manage risk and deliver against objectives. You will also develop skills in working with others to ensure success.

Training Course Objectives

By the end of this Anderson training course, you will be able to:

- ▸ Understand the role of Risk Management in contributing to performance and competitiveness
- ▸ Master the concepts, approaches, international standards, methods and techniques for the effective implementation of Risk Management
- ▸ Discuss & learn the practical application of these best practices
- ▸ Be able to evaluate current provision & develop mechanisms to support application across the organization
- ▸ Guide organizational deployment

Designed For
