Online Training Course Overview

Most organizational leaders today are searching for new engagement methods of creating greater two-way loyalty and commitment between employees to company, to leaders and customers to improve their critical place in the competition marketplace. This Anderson training course will train all participants on the essential skills necessary to improve engagement throughout an organization to improve every financial and productivity level of measures. These engagement principles reach right into the heart of the organization to support and true culture of engagement throughout, starting with the leaders at every level. The end result is greater improvements throughout the organization beginning with higher loyalty and motivation levels by all stakeholders.

Through proven relationship building skills learned in this Anderson training course, many leaders will improve their every day practices to gain outstanding results from their people, beginning with how they relate to them. This training course focuses on two powerful skills: Emotional Intelligence and Positive Psychology to improve Engagement skills. These skills are taught and applied to common business conditions to provide the type of applications that will yield immediate results for any organization.
