

Finance for Non-Financial Managers

Expanding Key Career Development Skills

► Training Details

Online Training Course Overview

What skills do you really need to drive you forward in your management career? Managers across all functions in many kinds of organisations typically find that they need some financial know-how to cope with the responsibility placed on them as budget holders and key decision-makers. From monitoring and improving business performance to investing in capital projects - all require some degree of financial knowledge. These vital business finance skills are not difficult to learn and in the hands of an experienced manager, they can provide a formidable competitive advantage, both for their business and their own career development.

This expert-led Anderson one-day online training course will focus on providing you with a sound understanding of what these key business finance principles mean and the confidence to apply them in your own organisation.

Online Training Course Objectives

By the end of this online training course, delegates will be able to:

- Understand fundamental financial principles
- Understand financial statements and reports
- Participate in finance related discussions and meetings
- Take part in the organisation's planning and budgeting process
- Help to build persuasive business cases for capital investment
