Training Details

Training Course Overview

What is the only sustainable competitive advantage for organisations to succeed in today's digital economy and rapidly changing, ambiguous, turbulent environment? The speed at which an organisation can sense and respond to the needs of its customers, to renew itself, adapt, and change quickly is the only truly sustainable competitive advantage – This is what "Organisational Agility" means. Agility enables organisations to drive strategic business goals in more effectively and improve margins, predictability and profitability.

This powerful Anderson training course will use, among others, instructor's guidance, delegates' inputs, discussions, and activities to build and enhance delegates' mastery of the organisational and personal agility. This training course is designed to help organisations become more adaptive, creative and resilient.

Training Course Objectives

By the end of this Anderson training course, delegates will be able to:

- Describe the agile mindset's underlying principles, such as pragmatism, the power of choice and adapting to context.
- Apply multiple leading agile and lean approaches value stream maps, Kanban values, principles and practices, A3s and lean thinking
- Implement a concurrent thinking and human dynamics-based model for change
- Confidently execute techniques to help examine and improve their work practices
- Mobilise powerful agile strategies into action on your team and ensure effective implementation.
