5 Days

Management Accounting & Supply Chain Strategies

Integrating Financial and Operational KPI\'s to your Overall Strategy

▶ Training Details

Why Choose this Online Training Course?

In today's economy, firms compete with each other on the basis of the relative merits of their respective supply chains. Understandably, management accounting practices must support this reality rather than provide information that is rooted in traditional organizational settings and develop management accounting practices that facilitate their long-term sustainability. This Online training course is intended to enable the delegates to acquire a solid foundation of Supply Chain Management Accounting (SCMA) and how to effectively implement Financial KPI's to the operational level of supply chain and logistics. The training course provides an overview of the most important requirements for preparing SCMA framework, with specific insight. **This Online training course will feature:**

- Principles of Supply Chain Management Accounting (SCMA)
- Environment, Social and Governance Framework
- Operation cycle & Planning cycle
- Inventory Management and Cost Control
- Supply Chain KPI's

What are the Goals?

By the end of this Online training course, participants will be able to:

- Acquire the necessary skills and competencies needed to run efficiently firm's operations
- Understand the founding principles of Supply Chain Management Accounting
- Align corporate goals and objectives to operation cycle and planning cycle
- Set up appropriate KPI 's for senior and operational staff and determine the roles and responsibilities of performance review
- Mitigate operational risks

Who is this Online Training Course for?

This Online training course is suitable to a wide range of professionals but will greatly benefit:

- Board level members who wish to develop their understanding of Supply Chain Management Accounting
- Auditing Professionals
- Corporate governance directors
- Internal auditors
- Corporate compliance officials
- Professionals seeking to develop their understanding of the accounting methods
- Public sector finance and accounting personnel

How will this Online Training Course be Presented?

This Online training course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This includes:

- Interactive Case Studies from the real world/delegates' company
- Discussion and Evaluation of the latest international tools & techniques
- Role play
- Pre & Post Course Assessments
