04-08 Nov 2024	Dubai - UAE	\$5,950
03-07 Feb 2025	Dubai - UAE	\$5,950

#### ► Training Details

##### Why Choose this Training Course?

Welcome to the Agile Project Budgeting Master Class! This comprehensive 5-day training course is designed to equip you with the knowledge and skills necessary to effectively manage budgets in Agile projects.

In today's dynamic and fast-paced business environment, organizations are increasingly adopting Agile methodologies to enhance project delivery and respond quickly to changing requirements. However, traditional project budgeting approaches often fall short in the Agile context, as they are unable to accommodate the iterative and adaptive nature of Agile projects.

During this Agile Project Budgeting Master Class training course, we will explore various topics, starting with the fundamentals of Agile project budgeting. We will delve into estimation techniques specific to Agile projects and how to effectively plan budgets based on these estimates. Additionally, we will examine the unique challenges and considerations related to Agile contracting and vendor management, as well as strategies for adapting budgets to changing project requirements. The course will conclude by emphasizing the importance of continuous improvement in Agile budgeting practices and fostering an Agile budgeting culture within your organization.

##### What are the Goals?

**By the end of this training course, participants will be able to:**

- Bridge the gap between Agile project management and budgeting
- Gain a deep understanding of how to plan, track, and control project budgets in an Agile environment
- Develop estimation techniques specific to Agile projects
- Learn how to track and control Agile project budgets, ensuring transparency and effective budget management throughout the project lifecycle

##### Who is this Training Course for?

**This training course is suitable to a wide range of professionals but will greatly benefit:**

- Project managers and team leads
- Finance managers and executives
- Business analysts

- ▶ Agile coaches and Scrum Masters
- ▶ IT professionals involved in Agile projects
- ▶ Anyone interested in learning Agile project budgeting principles and techniques

## How will this Training Course be Presented?

This Anderson training course will utilise a variety of proven adult learning techniques to ensure maximum understanding, comprehension and retention of the information presented. This includes experiential exercises, targeted self-assessments, video examples, skill practices, case studies, team activities and group discussions.

## ▶ Training Details

### Day One: Introduction and Agile Project Budgeting Fundamentals

- ▶ Introduction to the course and overview of Agile project budgeting
- ▶ Understanding the Agile methodology and its impact on project budgeting
- ▶ Key principles of Agile project management and how they relate to budgeting
- ▶ Overview of traditional project budgeting methods and their limitations
- ▶ Agile budgeting frameworks and techniques
- ▶ Case studies and examples of Agile project budgeting in action
